LINCOLN INTRODUCES NEW PATIO DOOR SYSTEM

Meld indoor and outdoor spaces with ease.

Merrill, WI. (June 3, 2009) – Lincoln presents their new Fold-A-Way Patio Door.

This breathtaking new door offers consumers the ability to blur the lines between the inside and outside of a home or business or easily turn two rooms into one and back again. When closed, the system provides a secure barrier from unwanted visitors, noise and weather elements while maintaining the view. When open, it creates an expansive passage between indoor and outdoor spaces without fixed glass panels, mullions or posts.

The “accordion style” door glides effortlessly on an overhead track system. Numerous out-swing panel configurations are available anywhere from two to eight panels in each direction and can include an access panel.

Fully customizable, the Fold-A-Way Patio Door is available with handle sets in twelve solid finishes and two split finishes, six interior wood species, three frame and sash exteriors (primed wood, species grade mahogany and fir and extruded aluminum clad), multiple glass options, three styles of grids and the option of a fully integrated retractable screen.

Lincoln’s new Fold-A-Way Patio Door is sure to add a touch of excitement to any project.

Lincoln Wood Products, Inc. has been manufacturing high quality wood windows and patio doors for new construction, remodeling and light commercial projects for over 60 years. Based in Merrill, Wisconsin, the privately owned company engineers windows and patio doors for visual appeal as well as outstanding performance and backs it up with exceptional customer service before and after the sale. Lincoln windows and patio doors are marketed through a network of over 400 independent distributors throughout the U.S. For more information visit www.lincolnwindows.com or call 715.536.2461.
