

WINDOWS

win·dow (win'dō)

n. An opening constructed in a wall or roof that functions to admit light or air to an enclosure and is often framed and spanned with glass mounted to permit opening and closing.

Lincoln delivers plenty of value to the market with a wide array of products constructed with strong architectural characteristics. Mortise and tenon joinery combined with a great deal of wood enhances both our exterior and interior aesthetics making Lincoln windows incredibly desirable. Offering several exterior options including limitless colors, countless sizes and shapes is our niche.

We select superior components, starting with first-rate wood, for frame and sash members which truly creates stunning interiors. All Lincoln windows utilize double-strength glass and contemporary hardware for an energy efficient and attractive window package. Our full line of windows have an impressive list of quality options that are sure to satisfy every need.
